Great - by my count - all three have passed. Thanks to those who voted.

Prakash - welcome formally to the group.

Hi everyone - updating the voting member for Orb-1 to be Hassan (and moving Yasmeen to bcc)

Hassan - can you please let the group know Orb-1's views on these three CIPs?

Thanks

One last revision - one of our eagle eyed participants reminded me of one more SV weight change.

In the attached, please find 3 CIPs:

- \* CIP-0009 : Add Broadridge to Foundation
- \* CIP-0010 : Upgrade LCV from T2 -> T1
- \* CIP-0011 : Remove IEU weight from Foundation

DA votes in favor of CIP-0011

Eric

Hello esteemed Super Validators

As the SV pool grows, it would be a good idea to shift to the CIP process to formally manage membership.

As such, I am proposing two CIPs here today. The first is to formally add Broadridge to the group as a Tier 1 SV (weight 10) as they have completed all their paperwork to become a T1 SV. The other is to bump LCV up from T2 to T1 as they have completed their requirements to become a T1 SV.

I'm separating these out so as not to conflate the votes. Given Launch is nearing rapidly, I'd like to give until Friday, May 17th to vote on these matters. As with other CIPs during TestNet, silence will be assumed to be in favor of the motions on the vote deadline.

For the record - DA votes in favor of CIP-0009 and CIP-0010

Thank you

Eric
