

Hello everyone

Quick follow up to add one more Tier 1 SV to the group - Tradeweb!

After this CIP, I think there might be one other party to jump in last minute but otherwise we have our founding group of SVs set!

Thanks for a quick turnaround on these additions.

Eric

## CIP-0018 :

### Summary

- Add Tradeweb as a T1 (weight 10) Super Validator

### Proposed Changes

- Add Tradeweb to the SV weight pool
- Increase Foundation node weight to account for Tradeweb
  - To meet the tight timelines, Tradeweb will join the initial launch on the Foundation's multi-tenant node operated by IEU
  - As Tradeweb is *not* going to be an SV operator on launch, they will have no direct governance votes until they operate their own SV
  - Foundation's minting weight will be bumped +10 to account for Tradeweb
  - Weight 10 of the total Super Validator minting weight on the Foundation node will be designated to the Tradeweb Validator
  - Tradeweb will takeover operations of their own SV after launch
