Hello esteemed Super Validators

As the SV pool grows, it would be a good idea to shift to the CIP process to manage membership.

As such, I am proposing ~~two~~ three CIPs here today. The first is to formally add Broadridge to the group as a Tier 1 SV (weight 10) as they have completed all their paperwork to become a T1 member. The other is to bump LCV up from T2 to T1 as they have completed their requirements to become a T1 SV. And lastly, IEU has elected to forgo their SV rights to mint.

I'm separating these out so as not to conflate the votes. Given Launch is nearing rapidly, I'd like to give until Friday, May 17th to vote on these matters. As with other CIPs during TestNet, silence will be assumed to be in favor of the motions on the vote deadline.

Thank you

Eric

CIP-0009 :

Summary

- Add Broadridge as a T1 (weight 10) Super Validator

Proposed Changes

- Add Broadridge to the SV weight pool
- Increase Foundation node weight to account for Broadridge
  - To meet the tight timelines, Broadridge will join the initial launch on the Foundation's multi-tenant node operated by IEU
  - As Broadridge is *not* going to be an SV operator on launch, they will have no direct governance votes until they operate their own SV
  - Foundation's reward weight will be bumped +10 to account for Broadridge
  - Weight 10 of the Foundation reward will be designated to the Broadridge Validator
