Subject: [ACTION REQUIRED VOTE] CIP

Hi everyone

The Tokenomics Working Group at the GSF has met over the course of the past few weeks and are presenting the following CIPs for a vote from the existing SVs.

Please fill out the following list with your Yes/No vote

CIP 0032 - Lukka : YES

CIP 0033 - Strange Pixels : NO

CIP 0034 - Proof Group : YES

CIP 0036 - Kiln : YES

CIP 0038 - Hexagate : YES

CIP 0039 - Copper Clearloop : YES

CIP 0040 - Deribit : YES

CIP 0042 - $1 Fee Adjustment : YES

CIPs 0035, 0037, and 0041 will be presented for a vote in the near future.

Please respond to this email NO LATER than Friday, Dec 13th at 5pm ET.

Thank you!

DRW/Cumberland Votes as follows:

CIP 0032 - Lukka : Yes
CIP 0033 - Strange Pixels : No
CIP 0034 - Proof Group : We are generally supportive of the idea/org, but would like more information on the scope of their block explorer. The concern is they deliver something at feature parity or lower than what exists.
CIP 0036 - Kiln : Yes
CIP 0038 - Hexagate : We are generally supportive of the idea/org but would like to better understand what is in scope for their real time threat detection commitment.
CIP 0039 - Copper Clearloop : Yes
CIP 0040 - Deribit : Yes
CIP 0042 - $1 Fee Adjustment : Yes

For the two I've ask about for more information, if they can provide further details via email and it's reasonably scoped we would vote yes.

Chris
